

LiUNA Chicagoland Laborers' Training & Apprenticeship Fund

“Scaffold Program Curriculum Update”

Effective April 1, 2020

The CLTAF's Scaffold Program has been redesigned to better meet the industry needs and demands of our Laborers. The CLTAF Scaffold Program will consist of the following independent training courses:

5-Day Scaffold Technology Course

This 5-Day training will include the following topics and Scaffold Systems:

- Scaffold User Safety – OSHA Subpart L
- Scaffold Tools and P.P.E.
- Building Frame Scaffolds
- Building Tube and Clamp Scaffolds
- Building Systems Scaffolds
- Proper Use and Safely Working on Elevated Work Platforms (Scissor and Boom Lifts)

2-Day Suspension Scaffold Builder Course

This course will require successful completion of the 5-Day Scaffold Technology Course and current Certificate/Skill as a Pre-Requisite. This 2-Day training will consist of the following topics:

- Suspension User Safety
- Building Suspension Scaffolds

1-Day Scaffold Refresher

The 5-Day Scaffold Technology and 2-Day Suspension Course Certificates/Skills will expire every 4 years. Participants will be required to attend this 1-Day Refresher Course every 4 years to maintain their certificates/skills. There will be a 1-year grace period extended to you to renew your certification.

2-Day Hydro-Mobile Scaffolds

This course will require successful completion of the 5-Day Scaffold Technology Course as a Pre-Requisite. This 2-Day training will consist of the following topics:

- Building and User Safety for Hydro-Mobile's M2 Series

The Hydro-Mobile M2 Series Certificate/Skill expires every 5-years. This 2-Day training must be taken every 5-years to maintain a valid Certificate/Skill.
